TIPOLOGIE DI ANTE
DOOR TYPES

Le librerie ad "ante scorrevoli" sono caratterizzate dalle molteplici combinazioni cromatiche e formali che si possono configurare grazie alla varietà di ante in melaminico o in vetro. Il meccanismo che permette alle ante di scorrere è predisposto per agganciare con facilità le stesse che sono anche provviste di particolare "soft-closing" nella fase di fine corsa.

The bookshelves with "sliding doors" are characterised by their chromatic and formal combination possibilities, supported by the variety of melamine and glass doors. The sliding rail mechanism is conceived to allow an easy installation of the doors and is also equipped with a special soft close device.

Le librerie con "ante saliscendi" di grande flessibilità compositiva si prestano ad essere inserite soprattutto in ambienti di prestigio. Funzionalità ed eleganza si evidenziano attraverso l'insieme di tutta la struttura contenitiva, ma la particolarità rilevante stà nel movimento delle ante che, attraverso un sofisticato meccanismo, si muovono in verticale con un leggerissimo e silenzioso saliscendi.

The flexibility of these bookshelves with "sash-sliding doors" allows their positioning in prestigious environments. Functionality and elegance are highlighted through the whole storage structure of the unit, but the real unique feature is the movement of doors that, through a sophisticated mechanism, softly and silently slide in a vertical sense.
