

## SCHEDA TECNICA

### TAVOLI CON STRUTTURA METALLICA:

Scrivanie, tavoli dattilo, tavoli riunione, allunghi composti dai seguenti elementi:

#### - PIANI DI LAVORO:

I piani di lavoro hanno i 4 angoli arrotondati R. 4,5 cm e sono realizzati in conglomerato ligneo sp.25 mm con rivestimento in melaminico bianco, rovere chiaro, rovere tabacco o rovere moro con bordo perimetrale in ABS sp.2 mm.

#### - GAMBE METALLICHE :

Gambe a forma di cavalletto composte da un traverso orizzontale in tubolare metallico a sezione rettangolare 60 x 40 x sp.1,5 mm e da due montanti verticali realizzati in lamiera stampata sp.1,5 mm con forma a sezione variabile. Le gambe sono disponibili nei colori bianco semilucido o alluminio goffrato. Le gambe sono corredate di tappi superiori e di puntali entrambi realizzati in ABS stampato nei colori bianco o grigio alluminio. I puntali sono dotati di piedini livellatori colore grigio.

Le gambe intermedie vengono integrate alle travi binario con appositi distanziali in lamiera stampata sp.3 mm. Le gambe terminali vengono collegate con le travi binario mediante appositi elementi di giunzione a forma di 'U' rovesciata realizzati in lamiera stampata e zincata sp.5 mm.

Le gambe freestanding vengono utilizzate nei tavoli riunioni rotondi e quadrati e sono composte da un montante realizzato con le stesse caratteristiche della gamba scrivania al quale viene saldata una piastra superiore realizzata in lamiera stampata sp.2,5 mm.

#### - TRAVI BINARIO METALLICHE:

Sono realizzate in lamiera sp.2 mm piegata con una sezione aperta a forma di trapezio, verniciate colore alluminio goffrato. Ogni trave e' corredata nelle estremità di tappi terminali realizzati in ABS colore bianco o grigio alluminio. Le travi degli allunghi sono predisposte per agganciarsi alle travi binario delle scrivanie mediante coppia di staffe in lamiera piegata sp.4 mm.

#### - GAMBONE METALLICO BASE LARGA:

Utilizzato nei tavoli riunione è composto da: fusto in tubolare d'acciaio a sezione quadrata 80 x 80 mm e sp.3 mm; piastra superiore in lamiera diametro 480 mm e sp.8 mm; base in lamiera 550 x 550 mm e sp.10 mm. Il tutto in colore alluminio goffrato o bianco semilucido.

### MODESTY PANEL:

Realizzato in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, rovere chiaro, rovere tabacco o rovere moro con bordo perimetrale in ABS sp.2 mm. Staffe metalliche sagomate sp.2,5 mm colore bianco semilucido o alluminio goffrato per il fissaggio alle travi binario dei tavoli.

### CANALIZZAZIONE:

Per la canalizzazione sotto piano è previsto un canale passacavi realizzato in PVC estruso colore grigio alluminio, disponibile in diverse lunghezze, che viene fissato lungo le travi binario o liberamente sotto ai piani di lavoro. Il fissaggio avviene mediante una serie di cerniere realizzate in ABS stampato colore grigio alluminio che permettono il fissaggio e la rotazione del canale passacavi. In ogni confezione sono presenti delle clip bloccavi. Il canale passacavi è predisposto per il fissaggio della scatola schuko mediante appositi agganci realizzati in ABS stampato colore grigio alluminio.

#### Canalizzazione verticale:

- per le gambe è disponibile un apposito carter in lamiera piegata da applicare con calamite.
- passacavi verticale a spirale realizzato in materiale plastico.

### PORTE CPU SOSPESO:

E' composto da una lamiera piegata sp.4 mm verniciato colore bianco semilucido o alluminio goffrato e da due cinghie in nylon colore nero con sistema di fissaggio rapido. Il tutto viene fissato alle travi binario mediante appositi giunti realizzati in pressofusione di zama.

### CASSETTIERA SOSPESA, CASSETTIERI SU RUOTE O PORTANTI:

#### - CASSETTIERA IN MELAMINICO CON CASSETTI IN CONGLOMERATO LINEO RIVESTITO PVC SU RUOTE O PORTANTE:

realizzate in conglomerato ligneo con rivestimento con melaminico bianco, rovere chiaro, rovere tabacco o rovere moro. Cappello sp. 18 mm con bordi perimetrali in ABS sp. 2 mm, scocca e frontal cassetti sp. 18 mm con bordi perimetrali in ABS sp. 1,5 mm. Cassetti interni sp. 12 mm, rivestiti in PVC grigio chiaro. Guide metalliche in versione semplice per il cassetto normale e nella versione telescopica per il cassetto classificatore. Il cassetto classificatore è attrezzato con telaio metallico per contenere cartelle sospese con interasse 33/39 cm ed è dotato di ruotino antiribaltamento. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio. Ruote in nylon nero. Per la versione portante a 2 o 3 cassetti vengono utilizzati piedini livellatori in ABS stampato verniciati colore alluminio, e un supporto composto da una staffa realizzata in lamiera stampata sp.4 mm e da un tubolare metallico diametro 6,5 cm sp.2 mm il tutto verniciato colore bianco semilucido o alluminio goffrato, per il fissaggio alle travi del piano. La casettiera sospesa è disponibile in melaminico bianco o alluminio ed è corredata di top di finitura realizzato in conglomerato ligneo con rivestimento con melaminico bianco o alluminio con bordi perimetrali in ABS sp. 1,5 mm. Il tutto viene fissato alle travi binario della scrivania mediante elementi di giunzione realizzati in pressofusione di zama.

#### - CASSETTIERI IN METALLO:

realizzati in lamiera piegata e saldata sp. 8/10 sono disponibili nelle finiture bianco, alluminio o antracite. Guide metalliche a estrazione totale. Il cassetto classificatore è attrezzato con telaio metallico per contenere cartelle sospese con interasse 33/39 cm ed è dotato di ruotino antiribaltamento. Serratura con chiusura centralizzata, antiribaltamento, dotata di duplice chiave pieghevole ed impugnatura in ABS nero. N°4 ruote diametro 36 mm in nylon nero.

### MOBILE DI SERVIZIO DX/SX CON ANTE SCORREVOLI BIFACCIALE O MONOFACCIALE:

Scocca realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco o alluminio con bordo perimetrale a vista in ABS sp. 1,5 mm. Le ante scorrevoli sono realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico nei colori bianco, verde bambù, rosso papavero, giallo senape, terra d'ombra, azzurro turchese con bordo perimetrale in ABS colore alluminio sp. 1,5 mm; esse sono agganciate con appositi supporti ai binari in alluminio applicati all'interno del mobile e precisamente n°2 sotto il cappello e n°2 sopra il fondo. Serratura a pulsante dotata di duplice chiave pieghevole ed impugnatura in ABS grigio. Piedini fissi con livellatore colore nero. Per il collegamento del mobile di servizio alla scrivania è disponibile un un supporto composto da una staffa realizzata in lamiera stampata sp.4 mm e da un tubolare metallico diametro 6,5 cm sp.2 mm il tutto verniciato colore bianco semilucido o alluminio goffrato, per il fissaggio alle travi del piano.

### FRONTAL PANELS:

Sono disponibili nelle seguenti versioni:

#### - FRONTAL PANELS RIVESTITI IN TESSUTO:

Sono disponibili in diverse forme e dimensioni e sono composti da un pannello interno in multistrato sp.1 cm rivestito in tessuto. I frontal panels sagomati sono disponibili nelle finiture verde kiwi e azzurro cielo, mentre il frontal panel rettangolare è disponibile solo nella versione con rivestimento bicolore asimmetrico cocco/papaya.

#### - FRONTAL PANELS IN MELAMINICO:

realizzati in conglomerato ligneo sp. 10 mm con rivestimento in melaminico nei colori bianco, verde bambù, rosso papavero, giallo senape, terra d'ombra, azzurro turchese, alluminio o antracite con bordo perimetrale in ABS colore alluminio sp. 1,5 mm.

Il fissaggio ai piani di lavoro avviene mediante morsetti realizzati in pressofusione di zama colore alluminio.

### MANIGLIE IN ZAMA COLORE ALLUMINIO SATINATO.

N.B. TUTTI GLI ELEMENTI IN METALLO SONO VERNICIATI CON POLVERI EPOSSIDICHE.
