

DV503-CONTENITORI:

I CONTENITORI SONO COMBINABILI, SOVRAPPONIBILI E VANNO COMPLETATI CON TOP E ZOCCOLI METALLICI OPZIONALI H 2,7 CM, DA ORDINARE A PARTE (tutti i contenitori hanno 5 piedini livellatori di serie).

Sono previsti contenitori a giorno, con ante piene battenti, ante vetro battenti con e senza telaio, cassetti normali, cassetti classificatori e frigo bar. Sono composti dai seguenti elementi:

SCOCCHE P. 33,2 o 43 cm:

Realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco o alluminio. Schiene in fresata sp. 18 mm.

RIPIANI:

I ripiani sono disponibili in due diverse tipologie: ripiani normali posizionabili all'interno della scocca secondo le proprie esigenze e ripiani per ante sovrapposte che vanno posizionati in corrispondenza della sovrapposizione delle ante. Entrambe le tipologie sono realizzate in due versioni:

- Ripiani in conglomerato ligneo sp. 25 mm con rivestimento in melaminico bianco o alluminio.
- Ripiani in metallo sp. 25 mm realizzati in lamiera piegata sp. 10/10 colore alluminio (solo per scocche P. 43 cm), predisposti nella parte sottostante per agganciare cartelle sospese con interasse 33 cm con portanome verticale.

TOP PER CONTENITORI P. 35,5 o 45,2 cm e TOP PER CONTENITORI BIFACCIALI P. 47,2 cm:

I top sono disponibili in tre tipologie:

- Top in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico alluminio, grigio chiaro, bianco, rovere chiaro, rovere tabacco, rovere moro e noce, con bordo anteriore in ABS sp. 1,5 mm.
- Top in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordo anteriore in metacrilato lucido sp. 1,5 mm.
- Top impiallacciato: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

ANTE PIENE BATTENTI:

Le ante sono disponibili in tre tipologie:

- Ante in melaminico: realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco grigio chiaro, rovere chiaro, rovere tabacco, rovere moro e noce, bordi perimetrali in ABS sp. 1,5 mm.
- Ante in laminato: realizzate in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordi perimetrali in metacrilato lucido sp. 1,5 mm.
- Ante impiallacciato: realizzate in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Le ante sono dotate di cerniere metalliche regolabili rallentate. La coppia ante in tutte le altezze è dotata di serratura di serie: per le ante h. 79,6 cm e h. 124,4 cm la serratura è "a doppia leva" con chiusura simultanea verticale e orizzontale mentre per le ante h. 159,6 cm e h. 204,4 cm la serratura ha un sistema di chiusura a "cremagliera". L'anta singola h. 204,4 è dotata di serratura di serie con sistema di chiusura a "cremagliera" mentre per le altre ante singole la serratura è optional da ordinare a parte. Le serrature sono dotate di duplice chiave pieghevole ed impugnatura in ABS grigio.

ANTE BATTENTI IN VETRO FUME':

Disponibili nelle altezze 124,4 cm e 159,6 cm, sono realizzate in vetro temprato fumé sp. 5 mm e sono dotate di cerniere metalliche regolabili. Sia l'anta singola che la coppia sono disponibili nella versione con o senza serratura. Le serrature sono dotate di duplice chiave pieghevole ed impugnatura in ABS grigio.

ANTE BATTENTI IN VETRO ACIDATO:

Disponibili nelle altezze 124,4 cm, 159,6 cm e 204,4 cm, sono realizzate in vetro temprato extrachiaro acidato sp. 4 mm con telaio perimetrale in profilato di alluminio anodizzato e sono dotate di cerniere metalliche regolabili. Sia l'anta singola che la coppia sono dotate di serratura con chiusura "a leva". Le coppie ante h. 159,6 cm e h. 204,4 cm sono dotate di un chiavistello per il bloccaggio dell'anta sul ripiano. Le serrature sono dotate di duplice chiave pieghevole ed impugnatura in ABS grigio.

ANTE BATTENTI IN VETRO RETROLACCATO:

Disponibili nelle altezze 79,6 cm, 124,4 cm, 159,6 cm e 204,4 cm, sono realizzate in vetro temprato extrachiaro retrolaccato bianco o nero sp. 4 mm con telaio perimetrale in profilato di alluminio anodizzato e sono dotate di cerniere metalliche regolabili rallentate. Sono disponibili solo con maniglie passo 256 mm, tipologie (V) e (T) e non sono dotate di serratura.

KIT FISSAGGIO A MURO (OPTIONAL):

Realizzato il lamiera piegata sp. 20/10 verniciato colore alluminio o bianco (per l'utilizzo vedi note tecniche).

FIANCHI DI FINITURA (OPTIONAL):

I fianchi di finitura sono disponibili in tre tipologie:

- Fianchi di finitura in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico grigio chiaro, rovere chiaro, rovere tabacco, rovere moro e noce, con bordi in ABS sp. 1,5 mm per i bordi verticali e superiore.
- Fianchi di finitura in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordi in metacrilato lucido sp. 1,5 mm per i bordi verticali e superiore.
- Fianchi di finitura impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

SCHIENE DI FINITURA (OPTIONAL):

Le schiene di finitura sono disponibili in tre tipologie:

- Schiene di finitura in melaminico: realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico grigio chiaro, bianco, rovere chiaro, rovere tabacco, rovere moro e noce.
- Schiene di finitura in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco.
- Schiene di finitura impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

CASSETTI:

I frontalini cassetti sono disponibili in tre tipologie:

- Frontali in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico grigio chiaro, bianco, rovere chiaro, rovere tabacco, rovere moro e noce, bordi perimetrali in ABS sp. 1,5 mm.
- Frontali in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordi perimetrali in metacrilato lucido sp. 1,5 mm.
- Frontali impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Cassetti interni sp. 12 mm rivestiti in PVC grigio chiaro. Guide metalliche semplici. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio.

CASSETTI CLASSIFICATORI:

I frontalini cassetti sono disponibili in tre tipologie:

- Frontali in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico grigio chiaro, bianco, rovere chiaro, rovere tabacco, rovere moro e noce, bordi perimetrali in ABS sp. 1,5 mm.
- Frontali in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordi perimetrali in metacrilato lucido sp. 1,5 mm.
- Frontali impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Il telaio metallico interno score su guide metalliche telescopiche ad estrazione totale, dotate di meccanismo "soft-closing" per ammortizzare la chiusura; è predisposto per contenere cartelle sospese con interasse 33/39 cm. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio. Il classificatore è dotato di meccanismo antiribaltamento che impedisce ai cassetti di aprirsi contemporaneamente. All'interno di ogni cassetto si può applicare, nel telaio portacartelle, un "box di chiusura" realizzato in lamiera piegata colore alluminio. (da ordinare a parte, vedi listino DV300-Accessori).

FRIGO-BAR:

Capacità lt. 50. Dotato di termostato per la regolazione della temperatura di cella. Produce ghiaccio. Tensione di alimentazione 220/230V/Hz 50/60. Aerazione posteriore. Vano laterale con ripiano. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio. Su richiesta è possibile ordinare il Frigo-Bar con tensione di alimentazione 115 V/ Hz 60.

VANO APPENDIABITI:

Dotato di ripiano in melaminico sp. 25 mm (vedi ripiani) e asta portabiti scorrevole. Anta con serratura con duplice chiave pieghevole ed impugnatura in ABS grigio.

ZOCCOLO METALLICO (OPTIONAL):

Realizzato in lamiera stampata da 10/10, colore alluminio. Altezza 2,7 cm. N° 4 piedini livellatori in ABS nero e un piedino centrale in ABS nero.

DV522-LIBRERIE CON ANTE SCORREVOLI ORIZZONTALI:**SCOCCA:**

Scocca e ripiani sp. 30 mm realizzati in conglomerato ligneo con rivestimento in melaminico bianco con bordi frontalini in vista ABS sp. 1,5 mm. Piedini con livellatore realizzati in ABS verniciati colore alluminio. Per lo scorrimento delle ante i ripiani sono dotati di un binario realizzato in estruso di alluminio anodizzato.

ANTE:

Le ante sono disponibili H. 40,5 e 81,5 cm, da combinare seguendo le composizioni a listino, e sono disponibili in quattro versioni:

- Ante in melaminico: realizzate in conglomerato ligneo sp. 10 mm con rivestimento in melaminico bianco, rovere chiaro, rovere tabacco e rovere moro con bordi perimetrali in ABS sp. 1,5 mm.
- Ante in vetro: realizzate in vetro retrolaccato sp. 5 mm in finitura bianco o nero.
- Ante in cuoio: realizzate in conglomerato ligneo sp. 10 mm con rivestimento in cuoio bianco, nero o testa di moro sp. 2 mm, con cuciture grigie.
- Ante impiallacciati: realizzate in conglomerato ligneo sp. 10 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Le ante vengono fissate ai binari della scocca mediante un meccanismo scorrevole con chiusura "soft-closing".

TOP (OPTIONAL):

Realizzato in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, rovere chiaro, rovere tabacco e rovere moro, con bordo anteriore in ABS sp. 1,5 mm.

DV521-LIBRERIE CON ANTE SALISCENDI:**SCOCCA:**

Realizzata in conglomerato ligneo con rivestimento in melaminico alluminio, con bordi perimetrali in vista con ABS sp. 1,5 mm. È composta da fianchi sp. 25 mm; cappello, fondo, divisorì, ripiani e schiene sp. 18 mm, con vani interni costanti e dimensioni fisse.

ANTE:

Ante saliscendi sono disponibili in quattro diverse tipologie:

- Ante in melaminico: realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico: noce, rovere chiaro, rovere tabacco o rovere moro, con bordi perimetrali in ABS sp. 1,5 mm.
- Ante in laminato: realizzate in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco con bordi perimetrali in metacrilato lucido sp. 1,5 mm.
- Ante in vetro: composte da un telaio in profilato di alluminio anodizzato con all'interno un vetro temprato extrachiaro retrolaccato bianco o nero sp. 4 mm.
- Ante in impiallacciato: realizzate in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Le ante vengono fissate su delle staffe applicate a due binari laterali (incassati nei fianchi) che permettono simultaneamente alle ante di salire e scendere.

Sono dotate di serratura, che chiude le ante tra di loro quando esse si accostano in posizione centrale con duplice chiave pieghevole ed impugnatura in ABS grigio.

Le ante nelle versioni in melaminico, impiallacciato ed in laminato possono essere raddrizzate mediante un meccanismo di trazione che è posizionato nella faccia interna delle stesse.

ZOCCOLO:

È realizzato con la stessa tipologia delle strutture scrivania della serie DV901 ed è quindi composto da un telaio perimetrale e da 5 gambe senza base (di cui una posizionata al centro del telaio) con un'altezza totale di 200 mm. Anche per gli zoccoli libreria è possibile creare delle strutture in linea come quelle dei tavoli riunioni utilizzando giunti tre vie collegati tra di loro con un traverso centrale. Gli zoccoli in metallo sono dotati di piedini regolabili che possono essere utilizzati anche dopo aver montato la libreria.

TOP:

Il Top di finitura è disponibile in tre tipologie:

- Top melaminico: realizzato in conglomerato ligneo sp. 18 mm con rivestimento in melaminico: noce, rovere chiaro, rovere tabacco o rovere moro con bordi anteriore e posteriore in ABS sp. 1,5 mm.
- Top laminato: realizzato in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco e bordo anteriore e posteriore in metacrilato lucido sp. 1,5 mm.
- Top impiallacciato: realizzato in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

DV530-BOISERIE:

La boiserie è disponibile in due altezze: h. 207,5 cm con partenza a pavimento e h. 123 cm che viene sovrapposta ai contenitori H. 84,5 cm. Portata 15 kg distribuiti uniformemente su tutto il ripiano.

I pannelli che compongono la boiserie sono disponibili in tre tipologie:

- Pannelli in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, noce, rovere chiaro, rovere tabacco o rovere moro.
- Pannelli in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato lucido antigraffio sp. 1,2 mm bianco.
- Pannelli impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Profili di collegamento e di chiusura realizzati in estruso di alluminio anodizzato. Per la boiserie con partenza a terra è previsto uno zoccolo in profilato di alluminio con piedini livellatori neri. Mensole realizzate in vetro temprato acidata sp. 8 mm, con bordi perimetrali lavorati a filo lucido.

La boiserie deve essere fissata a muro mediante apposite staffe in alluminio già in dotazione. Il fissaggio delle staffe al muro deve essere eseguito tramite tasselli da scegliere in base alle caratteristiche strutturali del muro e alle caratteristiche dettate dal costruttore di tasselli.

DV549-LOCKERS:**SCOCCA:**

Fianchi terminali e intermedi, coperchi, fondi, ripiani e schiene sp. 18 mm realizzati in conglomerato ligneo con rivestimento in melaminico bianco con bordi frontali in vista in ABS sp. 1,5 mm. Piedini livellatori in zama regolabili dall'interno della scocca.

ANTE:

Ante sp. 18 mm realizzate in conglomerato ligneo con rivestimento in melaminico nei colori bianco, verde bambù, rosso papavero, giallo senape, terra d'ombra o azzurro turchese con bordo perimetrale in ABS colore bianco sp. 1,5 mm. Le ante sono dotate di cerniere metalliche regolabili rallentate. Serratura standard con duplice chiave pieghevole ed impugnatura in ABS grigio. In alternativa "serratura con combinazione a 4 cifre" optional. Possibilità di avere le ante predisposte per il fissaggio di 1, 2, o 3 numeri (Optional) in ABS stampato con funzione identificativa e di maniglia.

TOP (Optional):

Top in melaminico realizzati in conglomerato ligneo sp. 18 mm con rivestimento bianco e bordo anteriore in ABS sp. 1,5 mm.

TAPPETINO ANTISCIVOLO:

Realizzato in polivinile espanso in finitura antracite.

DV550-CASSETTERIA PORTANTE 4 CASSETTI O 3 CASSETTI DI CUI UNO CLASSIFICATORE:

Realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, alluminio, grigio chiaro, noce, rovere chiaro, rovere tabacco o rovere moro. Frontali cassetti con bordi perimetrali in ABS sp. 1,5 mm.

Cassetti interni sp. 12 mm, rivestiti in PVC grigio chiaro. Guide metalliche in versione semplice con il meccanismo "soft-closing" per il cassetto normale e nella versione telescopica (non "soft-closing") per il cassetto classificatore. Il cassetto classificatore è attrezzato con telaio metallico per contenere cartelle sospese con interasse 33/39 cm. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio.

TOP:

Top in conglomerato ligneo con rivestimento in melaminico bianco, grigio chiaro, noce, rovere chiaro, rovere tabacco o rovere moro con bordi perimetrali in ABS sp. 2 mm.

Sono disponibili in due versioni:

- sp. 18 mm (da abbinare a serie DV801-DV802).
- sp. 25 mm (da abbinare a serie DV803-DV804-DV805).

ZOCCOLO METALLICO (Optional):

Realizzato in lamiera stampata 10/10 mm, colore alluminio, con n° 4 piedini livellatori in ABS nero. Disponibile in due versioni:

- altezza 1,8 cm (per top sp. 25 mm)
- altezza 2,6 cm (per top sp. 18 mm).

SOPRALZO PORTADOX:

Realizzato in conglomerato ligneo sp. 18 mm rivestito con melaminico bianco o alluminio con bordi in vista in ABS sp. 1,5 mm.

DV550-CONTENITORI L. 80 x H. 71,5-72,2 cm:

Sono previsti contenitori a giorno, con ante piene battenti, e sono composti dai seguenti elementi:

SCOCCA:

Realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco e alluminio, con bordi perimetrali in ABS sp. 1,5 mm.

RIPIANO:

Realizzato in conglomerato ligneo sp. 25 mm con rivestimento in melaminico bianco o alluminio, con bordi perimetrali in ABS sp. 1,5 mm.

TOP:

In conglomerato ligneo disponibili in due versioni:

- sp. 18 mm (da abbinare a serie DV801-DV802) con rivestimento in melaminico bianco, noce, rovere chiaro, rovere tabacco o rovere moro con bordi perimetrali in ABS sp. 2 mm.
- sp. 25 mm (da abbinare a serie DV803-DV804-DV805) con rivestimento in melaminico bianco, grigio chiaro, rovere chiaro, rovere tabacco o rovere moro con bordi perimetrali in ABS sp. 2 mm.

ZOCCOLO METALLICO (Optional):

Realizzato in lamiera stampata 10/10 mm, colore alluminio, con n° 4 piedini livellatori in ABS nero. Disponibile in due versioni:

- altezza 1,8 cm (per top sp. 25 mm)
- altezza 2,6 cm (per top sp. 18 mm).

ANTE PIENE BATTENTI:

Realizzate in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, alluminio, grigio chiaro, noce, rovere chiaro, rovere tabacco o rovere moro, con bordi perimetrali in ABS sp. 1,5 mm. Le ante sono dotate di cerniere metalliche regolabili rallentate. La coppia ante è dotata di serratura di serie. Le serrature sono dotate di duplice chiave pieghevole ed impugnatura in ABS grigio.

SOPRALZO PORTADOX:

Realizzato in conglomerato ligneo sp. 18 mm rivestito con melaminico bianco o alluminio con bordi in vista in ABS sp. 1,5 mm.

DV550-MOBILE DI SERVIZIO SU RUOTE:

Mobile di servizio con cassetti in conglomerato ligneo rivestito PVC: scocca realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico alluminio. Cappello, ante e frontal cassetti sono disponibili in tre tipologie:

- Cappello, ante e frontal cassetti in melaminico: realizzati in conglomerato ligneo sp. 18 mm con rivestimento in melaminico noce, rovere chiaro, rovere tabacco o rovere moro con bordo perimetrale in ABS sp. 2 mm per il cappello e sp. 1,5 mm per le ante e i frontal cassetti.
- Cappello, ante e frontal cassetti in laminato: realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato bianco lucido antiraffiglio sp. 1,2 mm con bordo perimetrale in metacrilato lucido sp. 2 mm per il cappello e sp. 1,5 mm per le ante e i frontal cassetti.
- Cappello, ante e frontal cassetti impiallacciati: realizzati in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente.

Cassetti interni sp. 12 mm, rivestiti in PVC grigio chiaro. Guide metalliche dotate di meccanismo "soft-closing" per ammortizzare la chiusura. Serratura con chiusura centralizzata, antiribaltamento, dotata di duplice chiave pieghevole ed impugnatura in ABS grigio. N° 5 ruote diametro 80 mm con freno composte da un supporto in alluminio con ruota in nylon il tutto colore alluminio, battistrada in gomma bianca.

DV550-CASSETTIERE:

Le cassettere con cassetti in conglomerato ligneo rivestito PVC sono disponibili in tre tipologie:

- Cassetiera in melaminico: realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, grigio chiaro, noce, rovere chiaro, rovere tabacco o rovere moro con bordo perimetrale in ABS sp. 2 mm per il cappello e sp. 1,5 mm per la scocca e i frontal cassetti.
- Cassetiera in laminato: scocca realizzata in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco lucido con bordi perimetrali in metacrilato lucido sp. 1,5 mm. Cappello e frontal cassetti realizzati in conglomerato ligneo sp. 16 mm con rivestimento in laminato bianco lucido antiraffiglio sp. 1,2 mm, con bordo perimetrale in metacrilato lucido sp. 2 mm per il cappello e sp. 1,5 mm per i frontal cassetti.
- Cassetiera in impiallacciato: realizzata in conglomerato ligneo sp. 18 mm al quale è applicato un tranciato rovere chiaro, rovere moro o noce canaletto verniciato trasparente. Fondo realizzato in conglomerato ligneo sp. 18 mm con rivestimento in melaminico bianco, grigio chiaro, noce, rovere chiaro, rovere tabacco o rovere moro con bordo perimetrale in ABS sp. 1,5 mm. Cassetti interni sp. 12 mm, rivestiti in PVC grigio chiaro. Guide metalliche in versione semplice con il meccanismo "soft-closing" per il cassetto normale e nella versione telescopica (non "soft-closing") per il cassetto classificatore. Il cassetto classificatore è attrezzato con telaio metallico per contenere cartelle sospese con interasse 33/39 cm ed è dotato di ruotino antiribaltamento. Serratura con duplice chiave pieghevole ed impugnatura in ABS grigio. N° 4 ruote in nylon nero diametro 50 mm, 2 delle quali dotate di freno.

DV550-CASSETTIERE IN METALLO:

Realizzate in lamiera piegata e saldata sp. 8/10 sono disponibili nelle finiture bianco, alluminio o antracite. Guide metalliche a estrazione totale. Il cassetto classificatore è attrezzato con telaio metallico per contenere cartelle sospese con interasse 33/39 cm ed è dotato di ruotino antiribaltamento. Serratura con chiusura centralizzata, antiribaltamento, dotata di duplice chiave pieghevole ed impugnatura in ABS grigio. N. 4 ruote in nylon nero diametro 36 mm, 2 delle quali dotate di freno.

MANIGLIE DISPONIBILI IN TRE TIPOLOGIE:

- **TIPOLOGIA (Q)** CON FORATURA PASSO 96 mm: in zama colore alluminio satinato;
- **TIPOLOGIA (V)** CON FORATURA PASSO 256 mm: in zama colore alluminio satinato;
- **TIPOLOGIA (T)** CON FORATURA PASSO 256 mm: in alluminio anodizzato.

Per le immagini delle tre tipologie di maniglie consultare le note tecniche o il catalogo fotografico.

N.B. TUTTI GLI ELEMENTI IN METALLO SONO VERNICIATI CON POLVERI EPOSSIDICHE.

DV503-STORAGE UNITS:

STORAGE UNITS ARE MODULAR, SUPERIMPOSABLE AND THEY SHOULD BE COMPLETED WITH TOP AND OPTIONAL H 2,7 CM METAL PLINTH, TO BE ORDERED SEPARATELY (all containers have 5 adjustable feet as standard).

The storage units are available in the following versions: open-fronted, with wooden wing doors, framed and unframed glass wing doors, standard drawers, filing drawers and mini-bar. They are composed of following elements:

CARCASS 33,2 or 43 cm deep:

Made of 18 mm thick wood conglomerate coated with white or aluminium coloured melamine, 18 mm thick back panels set in a groove. Nos. 4 ABS black adjustable feet and no.1 central black foot-support. In alternative: optional metal plinth.

SHELVES:

Shelves are available in two versions: standard shelves that can be freely positioned inside the storage unit, or fix shelves for overlapped door configurations (the fix shelves have to be positioned along the doors joint). Both are available in two versions:

- Shelves in 25 mm thick wood conglomerate in white or aluminium colour.
- 25 mm thick metal shelves in aluminium colour, made of cold formed sheet metal 10/10 – incorporating the possibility to hook hanging folders with 33 cm inter-space under the shelf – available only for 43 cm deep units.

TOP FOR 35,5 or 45,2 cm DEEP UNITS and TOP FOR BIFACIAL 47,2 cm DEEP UNITS:

They are available in three versions:

- Melamine top: made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish and with 1,5 mm matching ABS front edge.
- Laminate top: made of 16 mm thick wood conglomerate coated with anti-scratch gloss 1.2 mm thick laminate in white colour, and with 1,5 mm thick methacrylate gloss front edge.
- Veneer top: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

WOODEN WING DOORS:

The wooden doors are available in three versions:

- Melamine doors: made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish, with 1,5 mm thick ABS edge-profiles.
- Laminate doors: made of 16 mm thick wood conglomerate coated with white 1,2 mm thick, gloss anti-scratch laminate and gloss methacrylate edge-profiles 1,5 mm thick.
- Veneer doors: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

Doors are provided with adjustable soft-closing metal hinges. All the door pairs are provided with lock: the 79,6 cm and 124,4 cm high doors are provided with a "screw-on lock", with simultaneous vertical and horizontal closure, while the 159,6 cm and 204,4 cm high doors are provided with "espagnolette lock" with rotating bar. The single 204,4 cm high door is provided with "espagnolette lock" with rotating bar, while all other single doors can be completed with a lock that has to be ordered separately (optional). Locks include two bendable keys with grey ABS key-caps.

UNFRAMED GLASS WING DOORS:

5 mm thick smoked-grey tempered glass with adjustable metal hinges, available in 124,4 cm or 159,6 cm high. All doors are available with or without lock. Locks include two bendable keys with grey ABS key-caps.

ACETATED GLASS WING DOORS:

Available in three heights: 124,4 cm, 159,6 cm and 204,4 cm. They are made of 4 mm thick extra-light tempered acetated glass, with frame in anodised aluminium, and adjustable metal hinges. All doors are provided with "screw-on locks". The pair of glass doors 159,6 cm and 204,4 cm high, include a bolt to allow the blocking of the door on the internal shelf. Locks include two bendable keys with grey ABS key-caps.

REAR-LACQUERED GLASS WING DOORS:

Available in four heights: 79,6 cm, 124,4 cm, 159,6 cm and 204,4 cm. They are made of 4 mm thick extra-light tempered rear-lacquered glass in white or black colour with an anodised aluminium frame; adjustable soft-closing metal hinges. These doors do not include a lock and can be equipped with (V) or (T) handles, 256 mm centre.

WALL FITTING SET (OPTIONAL):

Made of 20/10 thick steel sheet painted with aluminium or white colour (for their use see technical notes).

DECORATIVE SIDE PANELS (OPTIONAL):

The side panels are available in three versions:

- Melamine side panels, made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish and with 1,5 mm matching ABS front and upper edge.
- Laminate side panels, made of 16 mm thick wood conglomerate coated with anti-scratch gloss 1.2 mm thick laminate in white colour, and with 1,5 mm thick methacrylate gloss front and upper edge.
- Veneer side panels: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

DECORATIVE BACK PANELS (OPTIONAL):

The back panels are available in three versions:

- Melamine back panels, made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish and with 1,5 mm matching ABS front and upper edge.
- Laminate back panels, made of 16 mm thick wood conglomerate coated with anti-scratch gloss 1.2 mm thick laminate in white colour, and with 1,5 mm thick methacrylate gloss front and upper edge.
- Veneer back panels: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

DRAWERS:

The front drawers are available in three versions:

- Melamine drawer fronts, made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish and with 1,5 mm matching ABS edge-profiles.
- Laminate drawer fronts, made of 16 mm thick wood conglomerate coated with anti-scratch gloss 1.2 mm thick laminate in white colour, and with 1,5 mm thick methacrylate gloss edge-profiles.
- Veneer drawer fronts: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

Inside drawers 12 mm thick, coated with light grey PVC. Simple metal guides. Lock with two bendable keys with grey ABS key-cap. 4 black nylon castors, 2 of them with brake.

FILING DRAWERS:

The drawer fronts are available in three versions:

- Melamine drawer fronts, made of 18 mm thick wood conglomerate coated with melamine in light grey, white, light oak, tobacco oak, dark oak, walnut finish and with 1,5 mm matching ABS edge-profiles.
- Laminate drawer fronts, made of 16 mm thick wood conglomerate coated with anti-scratch gloss 1.2 mm thick laminate in white colour, and with 1,5 mm thick methacrylate gloss edge-profiles.
- Veneer drawer fronts: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

The internal metal frame slides on fully extractable telescopic metal runners with soft-closing mechanism; they are suitable for hanging filing folders with 33/39 cm inter-space. Lock with two bendable keys with grey ABS key-cap. The filing unit is provided with an anti-tilt mechanism that does not allow to open the drawers simultaneously. It is possible to apply a "box" to the filing rack of each drawer to close it off; this "box" is made of aluminium coloured cold formed sheet and it is to be ordered separately (see pricelist DV300-Accessories).

MINI-BAR:

Capacity: 50 litres. Equipped with a thermostat for temperature control. Ice compartment. Voltage 220/230V / Hz 50/60. Rear ventilation grill. Lateral compartment with shelf. Lock with two bendable keys and grey ABS key-cap. It is possible to order the mini-bar with voltage 115 V / Hz 60, on request.

WARDROBE:

Supplied with a 25 mm thick melamine shelf and extractable coat-rack. Door with lock and two bendable keys and grey ABS key-cap.

METAL PLINTH (OPTIONAL):

Made of 10/10 mm pressed steel sheet, aluminium coloured. 2,7 cm high is equipped with 4 adjustable feet and a central one.

DV522-BOOKCASE WITH SLIDING DOORS HORIZONTALLY:**CARCASS:**

Bodies and shelves in 30 mm thick white melamine faced wooden conglomerate and frontal edges covered with 1,5 mm thick ABS. Adjustable feet in aluminium painted ABS. Shelves are equipped with extruded aluminium rails for the sliding doors.

DOORS:

Available in 40,5 and 81,5 cm high, to be combined according to the compositions shown in the price list, and available in four versions:

- Melamine doors: manufactured in 10 mm thick melamine faced wood conglomerate board in: white, light oak, tobacco oak and dark oak finish and edged with ABS 1,5 mm thick.
- Glass doors: manufactured with 5 mm rear-lacquered tempered glass, in white or black colour.
- Leather doors: made of 10 mm thick wood conglomerate upholstered with hard leather in white, black and dark brown colour, and grey stitching.
- Veneer doors: made of 10 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

All doors are fixed to the rail of the carcass through a sliding mechanism with soft-closing.

TOP (OPTIONAL):

They are made of 18 mm thick melamine faced wood conglomerate board in: white, light oak, tobacco oak and dark oak finish and edged with ABS 1,5 mm thick.

DV521-BOOKCASE WITH SLIDING SASH-DOORS:**CARCASS:**

Made of conglomerate wood coated with aluminium coloured melamine. ABS edge-profiles 1,5 mm thick. It is composed of 25 mm thick sides panels and 18 mm thick top, base, partitions, shelves and back panels. The storage spaces and the dimensions are fixed.

DOORS:

The latch doors are available in four versions:

- Melamine wooden doors: made of 18 mm thick wood conglomerate coated with: walnut, light oak, tobacco oak or dark oak finish melamine and 1,5 mm thick ABS edge-profiles.
- Laminate wooden doors: made of 16 mm thick wood conglomerate coated with 1,2 mm thick anti-scratch glossy white laminate and 1,5 mm thick gloss methacrylate edge-profiles.
- Glass doors: they are composed of an anodized aluminium frame and a 4 mm thick extra-light tempered, black or white rear-lacquered glass.
- Veneer wooden doors: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

The doors are fixed on brackets applied on two lateral runners (set in the side panels of carcass) which allow the doors to slide up and down simultaneously.

They are provided with a lock, which is closing when the doors are drawn to each others. Lock with two bendable keys with ABS grey key-cap. The melamine and laminate wooden doors can be balanced with a traction mechanism positioned on the back side of the doors.

PLINTH:

The plinth frame is made with the same DV901 desk's metal structure system and therefore it is composed of a perimeter frame and 5 legs without base (one leg is positioned in the frame's centre). It reaches a total height of 200 mm. It is possible to create compositions connected in line with the bookcases' plinths, using three-way joints connected through a central beam. The plinth metal frames are equipped with adjustable feet which can be operated also when assembled.

TOP:

The finishing top is available in three versions:

- Melamine wooden doors: made of 18 mm thick wood conglomerate coated with walnut, light oak, tobacco oak or dark oak finish melamine and 1,5 mm thick ABS edge-profiles.
- Laminate wooden doors: made of 16 mm thick wood conglomerate coated with 1,2 mm thick anti-scratch gloss laminate in white or red colour and 1,5 mm thick gloss methacrylate edge-profiles.
- Veneer top: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

DV530-BOISERIE:

The boiserie unit is available in two heights: h. 207,5 cm starting from the floor and h. 123 cm to be superimposed onto a h. 84,5 cm storage units.

The boiserie unit is composed of panels available in three versions:

- Melamine wooden panels made of 18 mm thick wood conglomerate coated with maple, walnut, light oak, tobacco oak or dark oak finish melamine.
- Laminate wooden panels: made of 16 mm thick wood conglomerate coated with 1,2 mm thick anti-scratch glossy white laminate.
- Veneer wooden panels: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaletto walnut finish and transparent paint.

Connection and end-profiles made of extruded anodized aluminium. An aluminium plinth with adjustable black feet is used for the boiserie unit when positioned on the floor.

Shelves in 8 mm thick tempered acetated glass, with polished edges. Loading capacity is 15 kgs evenly distributed on the glass shelf.

The boiserie unit has to be fixed on the wall with the fixings brackets provided. These must be fixed to the wall with suitable plugs (not supplied), in accordance with the structure of the wall and plug manufacturer's instructions.

DV549-LOCKERS:**CARCASS:**

Lateral sides, intermediate sides, tops, bottoms, shelves and back panels are made of 18 mm thick conglomerate wood coated with white coloured melamine. ABS edge-profiles 1,5 mm thick. Zamak adjustable feet, operable from inside the body.

WOODEN WING DOORS:

Made of 18 mm thick wood conglomerate coated with white, bamboo green, poppy red, mustard yellow, umber, turquoise blue colour melamine and have 1,5 mm thick ABS edge-profiles. Doors are provided with adjustable soft-closing metal hinges. Standard lock includes two bendable keys with grey ABS key-caps. In alternative "combination lock with 4-digit" (optional). Possibility of having the doors prepared for fixing 1, 2, or 3 numbers in molded ABS, with both identification and handle function (Optional).

TOP (OPTIONAL):

Made of 18 mm thick conglomerate wood coated with white coloured melamine. ABS edge-profiles 1,5 mm thick.

SLIP-PROOF MAT:

Made of polyvinyl foam anthracite color.

DV550-CARRYING PEDESTALS WITH 4 DRAWERS OR 3 DRAWERS + 1 FILING DRAWER:

Carcass an front drawers made of 18 mm thick conglomerate wood coated with white, light grey, walnut, light oak, tobacco oak or dark oak melamine.

Front drawers with ABS edge-profiles 1,5 mm thick.

Inside drawers 12 mm thick, coated with light grey PVC. Simple metal guides for standard drawers with "soft-closing" mechanism, and telescopic metal guides for file-drawer without "soft closing" mechanism. The filing drawer is equipped with a metal rack for hanging folders inter space 33/39 cm and it is provided with an anti-tilt castor. Lock with two bendable keys with grey ABS key-cap.

TOP:

Tops are made of conglomerate wood coated with white, light grey, walnut, light oak, tobacco oak or dark oak melamine, and ABS edge-profiles 2 mm thick. Two versions available:

- 18 mm thick (to be matched with DV801-DV802 series).
- 25 mm thick (to be matched with DV803-DV804-DV805 series).

METAL PLINTH (OPTIONAL):

Made of 10/10 mm pressed steel sheet, aluminium coloured, with 4 adjustable feet in black ABS. Two visions Available:

- 1,8 cm thick (to be matched with top 25 mm thick)
- 2,6 cm thick (to be matched with top 18 mm thick).

TOP BOX-HOLDER:

Made of 18 mm thick wood conglomerate coated with white or aluminium melamine finish and 1,5 mm ABS front edge-profiles.

DV550-STORAGE UNITS 80 x 71,5-72,2 cm H:

The storage units are available in the following versions: open-fronted, with wooden wing doors. They are composed of following elements:

BODY:

Made of 18 mm thick wood conglomerate coated with white or aluminium coloured melamine, with ABS edge-profiles 1,5 mm thick.

SHELVES:

Made of 25 mm thick wood conglomerate in white or aluminium colour melamine, with ABS edge-profiles 1,5 mm thick.

TOP:

Two versions available:

- 18 mm thick (to be matched with DV801-DV802 series). Made of conglomerate wood coated with white, walnut, light oak, tobacco oak or dark oak melamine, and ABS edge-profiles 2 mm thick.
- 25 mm thick (to be matched with DV803-DV804-DV805 series). Made of conglomerate wood coated with white, light grey, walnut, light oak, tobacco oak or dark oak melamine, and ABS edge-profiles 2 mm thick.

METAL PLINTH (OPTIONAL):

Made of 10/10 mm pressed steel sheet, aluminium coloured, with 4 adjustable feet in black ABS. Two visions available:

- 1,8 cm thick (to be matched with top 25 mm thick)
- 2,6 cm thick (to be matched with top 18 mm thick).

WOODEN WING DOORS:

Made of 18 mm thick wood conglomerate coated with white, light grey, walnut, light oak, tobacco oak or dark oak finish melamine, with 1,5 mm thick ABS edge-profiles.

Doors are provided with adjustable soft-closing metal hinges. All the door pairs are provided with lock. Locks include two bendable keys with grey ABS key-caps.

TOP BOX-HOLDER:

Made of 18 mm thick wood conglomerate coated with white or aluminium melamine finish and 1,5 mm ABS front edge-profiles.

DV550-SERVICE UNIT ON CASTORS:

Service unit with PVC wrapped drawers: body in 18 mm thick wood conglomerate coated with aluminium melamine. Top , doors and drawer fronts are available in three versions:
• Melamine top, doors and drawer fronts: made of 18 mm thick wood conglomerate coated with melamine in walnut, light oak, tobacco oak or dark oak with 2 mm thick ABS perimeter edges for the top and 1,5 mm thick for the doors and drawer fronts.
• Laminate top, doors and drawer fronts: made of 16 mm thick wood conglomerate coated with 1.2 mm thick glossy white anti-scratch laminate, with 2 mm thick gloss methacrylate edge-profiles for the top and 1,5 mm thick for the doors and drawer fronts.
• Veneer top, doors and drawer fronts: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaleto walnut finish and transparent paint. Internal drawers are 12 mm thick, light grey PVC wrapped. Metal runners with soft-closing system. Lock for centralised closure with anti-tilt mechanism and two bendable keys with grey ABS key-cap. 5 castors diameter 80 mm with locking brake composed of aluminium support with nylon castor all in aluminium colour and white rubber tread.

DV550-PEDESTALS:

The pedestals with drawers of conglomerate wood covered with PVC are available in three versions:

- Melamine pedestal: made of conglomerate wood coated with white, light grey, walnut, light oak, tobacco oak or dark oak melamine colour. Top 18 mm thick with ABS edge-profiles 2 mm thick. Carcass and front drawers 18 mm thick with ABS edge-profiles 1,5 mm thick.
- Laminate pedestal: made of conglomerate wood coated with glossy white melamine and gloss methacrylate edge-profiles 1,5 mm thick. Top and front drawers made of 16 mm thick wood conglomerate coated with 1,2 mm thick anti-scratch gloss white laminate and 2 mm thick gloss methacrylate edge-profiles for top and 1,5 mm for front drawers.
- Veneer pedestal: made of 18 mm thick wood conglomerate coated with wooden veneer in light oak, dark oak or canaleto walnut finish and transparent paint.

Inside drawers 12 mm thick, coated with light grey PVC. Simple metal guides for standard drawers with "soft-closing" mechanism, and telescopic metal guides for file-drawer without "soft closing" mechanism. The filing drawer is equipped with a metal rack for hanging folders inter space 33/39 cm and it is provided with an anti-tilt castor. Lock with two bendable keys with grey ABS key-cap. 4 black nylon castors, 2 of them with brake.

DV550-METAL PEDESTALS:

Are made of welded cold formed metal sheet 8/10 thick, they are available in white, aluminium and anthracite colour. Metal guides with total pulling out. The filing drawer is equipped with a metal rack for hanging folders inter space 33/39 cm and it is provided with an anti-tilt castor. Central locking with two bendable keys with grey ABS key-cap. 4 black nylon castors diameter 36 mm, 2 of them with brake.

THREE DIFFERENT HANDLES AVAILABLE:

- **(Q) TYPE** - DRILLING PITCH 96 mm: satin aluminium coloured zama;
- **(V) TYPE** - DRILLING PITCH 256 mm: satin aluminium coloured zama;
- **(T) TYPE** - DRILLING PITCH 256 mm: anodised aluminium.

For images of the three types of handles, see the technical notes or photographic catalog.

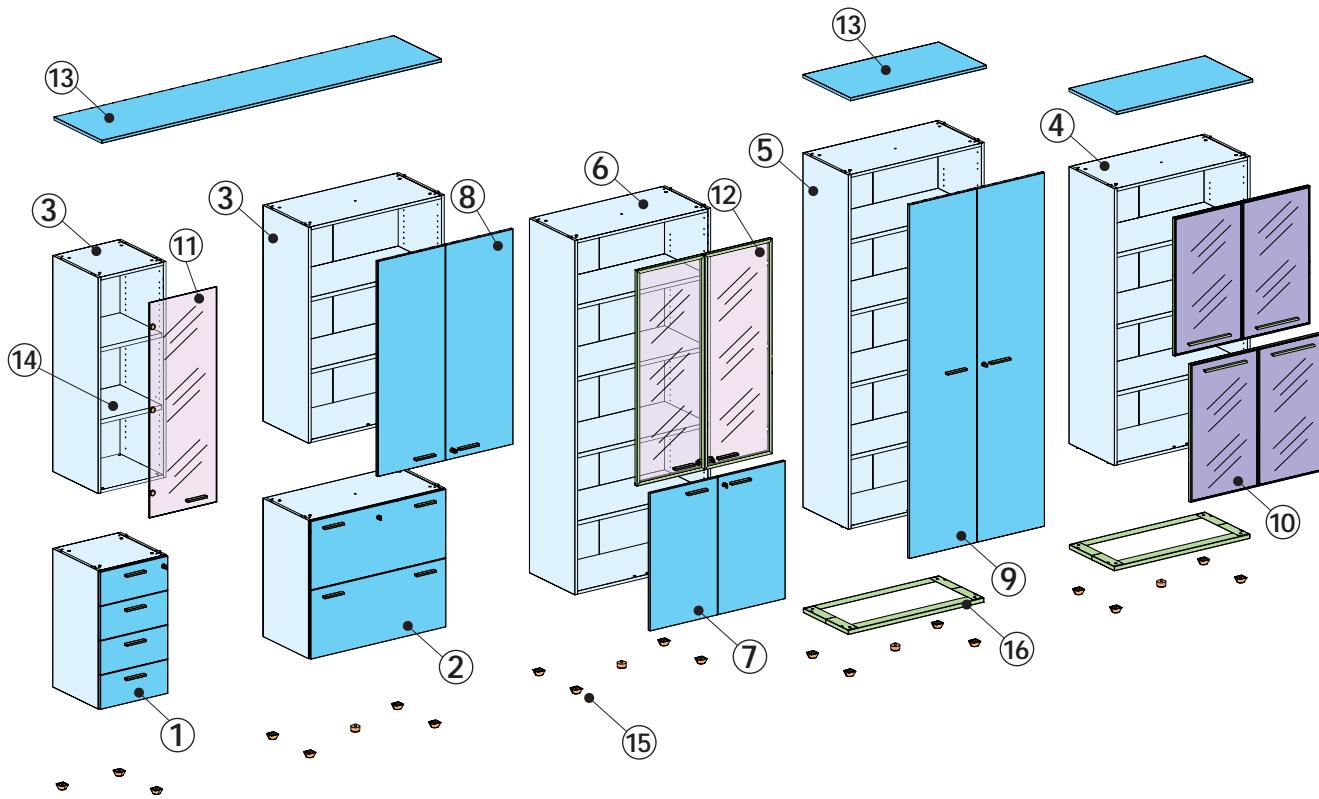

NOTE: ALL METAL COMPONENTS ARE PAINTED WITH EPOXY POWDERS.
